

## COMPASS Tablecloths

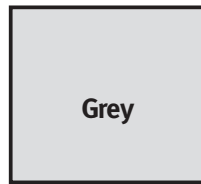

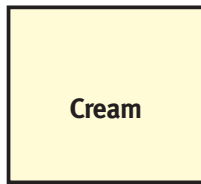

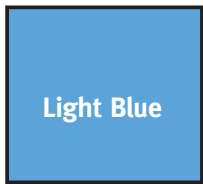

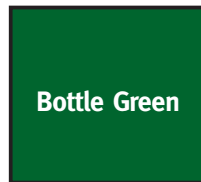

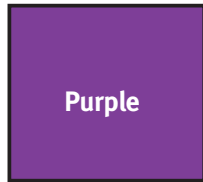

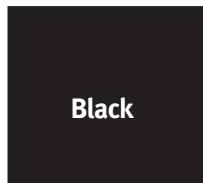

A Compass Tablecloth is 274cm x 178cm, made from spun polyester and fully washable.

On a standard 6 foot table the face with the logo on will completely cover the front of the table, hang down half way on the sides and leave the back open for access.

We prefer the logo to be an outlined eps file ( this will have the extension .eps or .ai ) but if you are struggling just give us a call for advice.

The colours below are an approximation only.

### Tablecloth Standard Colours
