SYSTEM	STANDARD	MINI
Standard height	2210mm	1800mm
High grade aluminium with lifetime guarantee.		
Scuff resistant graphic	✓	✓

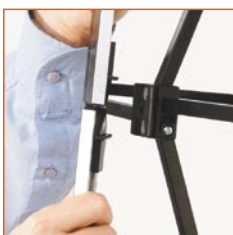

FEATURES

3 LINK MAG BAR

SECURE TOP LINK

MAGNETIC NODE

LIGHT FITTING

Magnetically mounted panels sit snugly on a lightweight aluminium framework, curved or flat, that can be extended to any length. But the real beauty of this system is that the panels are seamless. So creative graphics can be used to maximum effect.

Everything packs away simply and easily in just a few minutes. And there is a range of accessories available including a table conversion kit and lights.

We are always happy to demonstrate any of our portable exhibition systems. Call us if you have any questions.
